HYALURONIC ACID

During the cold winter months we can have absolute confidence in Hyaluronic acid series and we can be sure that our skin is well protected. The combination of hydrolyzed collagen and hyaluronic acid in the cosmetic series are the most powerful and effective ingredients in the battle against wrinkles and dehydrated skin. Collagen moisturizes epidermis and smooths skin, and hyaluronic acid is an ingredient, found naturally in our skin, that helps retain over 1,000 times its weight in water within the cells of skin.

Facial Serum

Lightweight gel texture with high content of hyaluronic acid and Aloe vera extract. The combination of the two active ingredients helps to maintain water balance and prevents the formation of fine lines and wrinkles. The serum is easily absorbed by the skin, leaving it comforted, elastic and soft.

Use: Apply with gentle tapping movements to your face after cleansing and drying, before applying your day or night cream. It can also be used separately.
