

# PURE ROSE PERFECTION

## NIGHT CREAM FACE AND EYE

Face cream which simultaneously cares for your skin at night and for the area around the eyes. The stress control molecule neurophroline™ is first generation cosmetic products, capable of blocking the production of cortisol from the skin cells and considerably stimulates the hormone of happiness – endorphin. It reduces skin reddening and dark circles around the eyes.

How to use: apply a pea-sized amount of the cream not more than twice in the evening on the cleansed facial skin and massage through by patting until it is fully absorbed. Suitable for the area around eyes. Avoid direct contact with eyes!

50 ml
