

# Refan's Rose

The new cosmetic line Refan's Rose is developed in the spirit of the Bulgarian tradition, and it was created especially on the occasion of the partnership of REFAN with Plovdiv 2019 - European Capital of Culture. The series includes facial wash gel, day and night face gel, body cream butter, peeling soap sponge and body mist.

The products of Refan's Rose are enriched with organic rose water, produced through steam-distillation of fresh rose petals of the Bulgarian oleaginous Rose damascena, grown in an ecologically clean region of the village of Tarnichane, district of Kazanlak. Rose plants and soils are not treated with pesticides, fertilizers or other synthetic preparations. Organic rose water has natural antiseptic and anti-bacterial properties, improves blood circulation and supports pH balance and the water balance in skin metabolism. It stimulates regeneration processes and has a calming and anti-inflammatory effect on rashes, acne and sunburned skin.

Suitable for all skin types, especially for sensitive skin. Thanks to their active ingredients, the products of Refan's Rose series soften, hydrate and tonify skin by leaving it pleasantly perfumed with the recognizable scent of the Bulgarian oleaginous rose.
