

Vitamin C

VITAMIN C ANTI-AGING DAY FACE CREAM

For optimal effect, use with REFAN'S latest product FACIAL FILLER VITAMIN C.

A POWERFUL CONCENTRATE REDUCING WRINKLES!

An antioxidant day face cream that fights skin aging and gives it bright and radiant appearance. Enriched with:

- Vitamin C: stimulates collagen synthesis, strengthens tissues and reduces skin oxidative stress caused by environmental factors. REFAN company uses one of the most stable formulas of vitamin C, which is synthesized in a Japanese laboratory and has a proven whitening effect.
- Vitamin E: protects skin from premature aging by preventing the destruction of collagen, which keeps it smooth and elastic.
- Glycerin: restores skin elasticity and strengthens its protective barrier.

Results of a conducted USER TEST for Vitamin C day face cream:

- 100% of the users have a good tolerance for Vitamin C day face cream.

After the test, participants felt their facial skin:

- 100% softer;
- 100% evening out the complexion;
- 100% tighter oval;
- 90.1% smoother.

After taking into account all criteria of the user test:

- 100% of the users consider that Vitamin C day face cream is effective as an anti-aging care;
- 100% of the users are satisfied and would use Vitamin C day face cream again.

How to use: apply to clean and dry facial skin in the morning for protection during the day.

50 ml
