

Coconut & Vanilla

Coconut & Vanilla range products embrace you with the unique scent of coconut and delicate vanilla, especially developed for daily care in all seasons. The combination of active ingredients included in the composition makes skin soft, supple and hydrated.

Hand, foot and body cream-butters contain a combination of high-quality active ingredients that makes skin soft, supple and hydrated:

Shea butter - rich in vitamins and fatty acids. The large amount of vitamin E in it helps to protect against the influence of the environment and the action of free radicals. It prevents the destruction of collagen and the appearance of wrinkles, smoothes fine lines and effectively counteracts the aging process. Vitamin F is of particular importance for maintaining healthy and beautiful skin and nails. Shea butter has a strong softening action on rough, dry and flaky skin.

Cocoa butter - a natural stimulant that accelerates cell metabolism, improves hydration, gives shine and smoothness, and maintains skin elasticity. It is a source of natural antioxidants.

Almond oil - it soothes and softens skin, making it more beautiful and sleek. It hydrates and restores skin, and has antioxidant properties.

Glycerin - it has the ability to attract and retain moisture from the environment, protects and restores skin's natural barrier function. So in practice, it increases skin's elasticity.

Vitamin B3 - reduces water loss and has an anti-aging effect, smoothes skin, stimulates elasticity.

The moisturizing shower gel, enriched with provitamin B5 and glycerin, gently cleanses, refreshes and tones body skin.
