Hydrating face mask

Cleanses and removes any impurities, leaving skin velvety soft. Dead Sea mud provides gentle exfoliation, which removes dead skin cells, unclogs pores and absorbs excess sebum. In combination with nicotinamide, it improves the barrier function of dry skin and increases moisture retention.

Use: Apply the mask to your wet face massaging gently and avoiding eye area. Leave it for at least 10 minutes, then rinse off with plenty of water. Use it once or twice a week.
