

MOISTURIZING

Body cream-butter

The emulsion is suitable for all skin types. Aloe Vera gel concentrate restores comfort and hydrates dermis, it's rich in vitamins, trace elements and amino acids. In combination with Snail extract, it stimulates cellular functions, supports skin regeneration and slows down the aging processes.

- Snail extract - one of the most effective means for skin regeneration, which thanks to its valuable components enhances protein synthesis, hydrates and slows down aging. Its main property is to activate skin by stimulating the cellular functions, and thus restoring and healing it. It contains many valuable for the skin components: allantoin, collagen, elastin, glycolic acid, hyaluronic acid, proteins, etc.
- Aloe Vera gel concentrate - contains over 150 ingredients that determine its incredible properties. These are over 12 vitamins - A, E, B1, B2, B3, B12, etc., minerals - potassium, calcium, magnesium, selenium, copper, chromium, zinc, phosphorus, etc., tannins and over 18 amino acids. It manifests strong regenerating properties in case of skin inflammations, and is also known for its long-lasting skin hydration.
- Cocoa butter - a natural stimulant that accelerates cellular metabolism, improves hydration, gives shine and smoothness, and maintains skin elasticity. It is a source of natural antioxidants.

Use: Apply to thoroughly cleansed skin and massage until it is fully absorbed.
