

MOISTURIZING

Night face cream

Specially developed with a new softer formula.

It is easily and quickly absorbed, does not leave behind greasy traces on the facial skin. Contains Aloe Vera gel concentrate, rich in vitamins, trace elements and amino acids, which restores comfort and hydrates dermis. In combination with Snail extract, skin is regenerated.

- Snail extract - one of the most effective means for skin regeneration, which thanks to its valuable components enhances protein synthesis, hydrates and slows down aging. Its main property is to activate skin by stimulating the cellular functions, and thus restoring and healing it. It contains many valuable for the skin components: allantoin, collagen, elastin, glycolic acid, hyaluronic acid, proteins, etc.
- Aloe Vera gel concentrate - contains over 150 ingredients that determine its incredible properties. These are over 12 vitamins - A, E, B1, B2, B3, B12, etc., minerals - potassium, calcium, magnesium, selenium, copper, chromium, zinc, phosphorus, etc., tannins and over 18 amino acids. It manifests strong regenerating properties in case of skin inflammations, and is also known for its long-lasting skin hydration.
- Vitamin E – it is widely used in cosmetics due to the strong protective functions it performs. Improves epithelization and increases enzyme activity in the skin. It slows down the processes of skin premature aging caused by UV radiation, by showing antioxidant properties and reducing the number of damaged cells. It has an anti-inflammatory and hydrating effect.
- Olive Squalane - a natural moisturizer, its molecular structure is analogous to that of the human lipids and has extremely good skin compatibility. Its main function is to maintain the natural lipid barrier in good condition.

Use: Apply onto thoroughly cleansed skin and massage until it is fully absorbed.
