

Gardenia and Rose

Facial serum

A light gel-concentrate, suitable for active treatment of ageing skin. The high contents of stem cells from gardenia and rose water regenerate the faded and sagging face skin, assisting collagen synthesis and slowing down the ageing processes..

The product contains:

Gardenia stem-cell extract - regenerates the sagging facial skin. It stimulates collagen synthesis and slows down the aging process. With soothing and tone-up effect. Improves skin elasticity and helps restore its firmness and healthy appearance.

Rose water 15%- a natural antiseptic and astringent. It tones and refreshes facial skin, improves blood circulation and maintains water balance in the skin renewal process.

Use: For a stronger effect apply as a basis onto the cleansed and dry skin of your face before the day or night cream. It can also be used separately. Suitable for eye contour area.

50 ml
