Hair perfume CODE ROUGE

If you would like to perfume both your body and hair with the luxurious scent of Code Rouge, Refan company offers you a specially developed Code Rouge hair perfume. It has a lower alcohol content, also contains pro- vitamin B5, which hydrates and strengthens your hair. Thanks to the porous structure of the hair, the scent lasts longer. Code Rouge hair perfume contains conditioning ingredients, a silicone-based polymer that improves combing, adds shine and softness, reduces surface tension, and a coconut oil-based polymer that moisturizes and prevents dryness. Your hair smells wonderful and is nourished at the same time.
