

Vitamin C

VITAMIN C ANTI-AGING DAY FACE CREAM

06456

A POWERFUL CONCENTRATE REDUCING WRINKLES!

An antioxidant day face cream that fights skin aging and gives it bright and radiant appearance. Enriched with:

- **Vitamin C:** stimulates collagen synthesis, strengthens tissues and reduces skin oxidative stress caused by environmental factors. REFAN company uses one of the most stable formulas of vitamin C, which is synthesized in a Japanese laboratory and has a proven whitening effect.
- **Vitamin E:** protects skin from premature aging by preventing the destruction of collagen, which keeps it smooth and elastic.
- **Glycerin:** restores skin elasticity and strengthens its protective barrier.

Results of a conducted **USER TEST** for **Vitamin C day face cream**:

- **100%** of the users have a **good tolerance** for **Vitamin C day face cream**.

After the test, participants felt their facial skin:

- **100%** softer;
- **100%** evening out the complexion;
- **100%** tighter oval;
- **90.1%** smoother.

After taking into account all criteria of the user test:

- **100%** of the users consider that Vitamin C day face cream is effective as an anti-aging care;
- **100%** of the users are satisfied and would use Vitamin C day face cream again.

How to use: apply to clean and dry facial skin in the morning for protection during the day.

50 ml
