

MOISTURIZING

Day face cream

The soft, ethereal formula is enriched with Snail extract and Aloe Vera gel concentrate, it gives the skin a silky feeling and carries magnetic scent of a delicate rose. Snail extract stimulates cellular functions and supports skin regeneration, and Aloe Vera gel concentrate restores comfort and hydrates dermis, it's rich in vitamins, trace elements and amino acids.

- Snail extract - one of the most effective means for skin regeneration, which thanks to its valuable components enhances protein synthesis, hydrates and slows down aging. Its main property is to activate skin by stimulating the cellular functions, and thus restoring and healing it. It contains many valuable for the skin components: allantoin, collagen, elastin, glycolic acid, hyaluronic acid, proteins, etc.
- Aloe Vera gel concentrate - contains over 150 ingredients that determine its incredible properties. These are over 12 vitamins - A, E, B1, B2, B3, B12, etc., minerals - potassium, calcium, magnesium, selenium, copper, chromium, zinc, phosphorus, etc., tannins and over 18 amino acids. It manifests strong regenerating properties in case of skin inflammations, and is also known for its long-lasting skin hydration.
- Vitamin E – it is widely used in cosmetics due to the strong protective functions it performs. Improves epithelization and increases enzyme activity in the skin. It slows down the processes of skin premature aging caused by UV radiation, by showing antioxidant properties and reducing the number of damaged cells. It has an anti-inflammatory and hydrating effect.

Use: Apply onto thoroughly cleansed skin and massage until it is fully absorbed.
